## YTX Gold Star Zinc Coated Star Drive Wood Screws

1" to 14" lengths

### Gold Star Flat Head Screws

1" to 6" lengths

### Type 17 Notched Extra Sharp Point

- Starts quickly without 'walking'
- Reduces need for pre-drilling

### Tiny V-Cuts on the Threads

- Cut through fibrous materials and greatly reduce the torque needed to drive the screw without affecting holding power

### High Quality Steel

- Heat treated
- Hardened

- **Deep, Wide, Sharp Threads**
  - Cut cleanly & easily
  - Provide maximum holding power

### Knurled Shoulder

- Reams hole in board being fastened, reducing drag on shank and driving tool

### Proper Thread Lengths

- Prevents cross-threading / jacking
- Pulls wood together first time, every time

### True Flat Head with 16 Cutting Nibs

- Self-countersinking

### Excellent Performance

- From Chipboard to Hardwoods

**FREE BITS Included!**

## The Ultimate Multi Purpose Screws!

### Star Drive Recess

- Reduces camout and end load
- Twice the torque of Phillips or square drive
- Eliminates spinning and fastener damage
- Recess sizes (20 to 30) to match the torque requirements of the screw size
- Gives better bit life

### Gold Star Extra Long Flat Head Screws

#14 x 5" to 8"

#15 x 10" to 14" lengths

### Extra Sharp Point

- Drives easily

### 2-1/2" & 3" thread length

- Ensures substantially greater holding power

### Stays Put

- Won't back out like nails

### T-30 Drive Size

- For proper torque

### For Use With:

- Log and timber buildings
- Landscaping timbers
- Retro roof applications
- Insulated panels
- Log furniture
- Big timber

**Gold Star Yellow Zinc Coated Screws** are an excellent interior multi purpose fastener! For professional use in demanding industries using hard or soft woods. Excellent performance from chipboard to hardwoods. Gold Star's superior holding power stays put and won't back out like nails! The Ultimate Star Drive offers twice the torque of Phillips or square.
