Screw Products, Inc. Adds Speed, Expanded Footprint with New Shipping Facility

SIMPSONVILLE, S.C. – In a strategic move to service a larger portion of the contiguous United States with same day shipping and delivery in one-to-two days, Screw Products Inc. has added a new shipping facility to its operations that adds both speed and efficiency.

The new warehouse joins Screw Products, Inc.'s existing flagship facility in Gig Harbor, Wash., and began shipping the company's full line of fasteners in June, 2014. Screw Products, Inc. President/CEO Jim Miller said retailers and lumberyards from Fargo, N.D. to San Antonio, Texas and Miami Fla. to Bangor, Maine and beyond can now expect orders from the [complete catalog](#) offering to arrive within 48 hours or less.

"Essentially, we can now service the majority of the nation's population in one-to-two days, be it pallets of product or a UPS or FedEx order," he said. "The facility is larger than our previous east-coast warehouse, but more importantly, it creates a more efficient footprint for us."

About Screw Products

Screw Products, Inc. has been providing quality fasteners backed by customer service since 1999. Its extensive product line offers and benefits such as type 17 augers, longer bit life, reduced splitting, and countersinking. Orders ship out the same day they are received; for more information, visit [Screw-Products.com](#) or call (877) 844-8880.
